Business Only Broadband Connects Oprah Live Show to the Internet

Westmont IL-September 9, 2009. Business Only Broadband announced today they are providing Internet connectivity that will assist people connected with the live production of the Oprah Winfrey Show celebrating their 24th season with a kickoff event downtown Chicago on Michigan Avenue and featuring the Black Eyed Peas, Criss Angel, Rascal Flatts, James Taylor and other fun surprises.

Business Only Broadband owns and operates the largest fixed wireless broadband network in the Chicago metropolitan area.

“We are excited about working with the folks putting together Internet service for this live event and believe we can help make an already great event better for Oprah, her guests and her viewers”, said Al Rosenberg CEO of BOB. “By providing wireless broadband we can ensure the people preparing for this production get the access they need to meet their requirements.”

For more information about how Business Only Broadband can help your production or media event, call (877) 627-5262.

About Business Only Broadband

Business Only Broadband delivers the next generation of Internet and Metro Ethernet solutions to assist IT professionals in the development and implementation of their broadband and wide area network strategies.

A public school or library's data and Internet network is a key community asset to support critical communications, education and job training to students, families, community residents, vendors and employees. Business Only Broadband provides the largest wireless broadband network in Northern Illinois; bandwidth from 1.5 Mbps to 1 Gbps; interconnection with multiple tier 1 transit providers at multiple data centers; 100% diverse, no common point of failure with the LEC or CLEC network; QOS and MPLS.
